

UNIQUE DESIGN

The concept comes first and we care a great deal about its uniqueness. It's our policy to stand out from the immeasurable mass of "copies of copies". During the production process, we do not only rely on the work of careful human hands. Our team of designers enables us to create outstanding designs from scratch, which meet our customers' ideas and needs. It is of great importance to us to keep the design process creative and bold. We're constantly looking for innovative ways of solving problems and challenges and very often come up with a solution that's different from what's already on the market. These smart solutions and the usage of materials have become our trademarks, which we are very proud of and excited about. Therefore the majority of our **PULARYS** designs are registered and copyright protected. At **PULARYS**, we provide our customers with exclusive wallets of premium quality and flawless finish that they won't find anywhere else.

SMART SOLUTIONS

A **PULARYS** minimalist wallet helps you stay organised, safe, and stylish anywhere you go. It offers RFID-blocking technology, helping to protect your credit cards, debit cards, and ID from identity theft and electronic pickpockets. The **PULARYS** wallet is designed with a "pul" mechanism of gradual card ejection, very much appreciated for its convenience. This mechanism allows for a slow and controlled release of cards from the wallet, making it easier for the user to access their cards without struggling to pull out a single card or a bunch of cards at once. The variety of pockets and aluminium case make organisation easy, while the slim size ensures that your pocket won't be overstuffed. The finished **PULARYS** wallet is durable and looks great, giving you an extra touch of class and sophistication.
