PRODUCT CATALOGUE

pu•la•rys [pul'aris]

noun

1.«an old Polish term for a wallet, originating mainly in the south of the country»; 2.«comes from the Latin word pugillares (tablets for writing down, for example, accounts)»; 3.«a kind of small pocket folder with compartments for notes, documents, etc.; a wallet»

HELLO. I'M YOUR **NEW** WALLET.

There are some objects that give us satisfaction and make us stand out. What we surround ourselves with influences who we are, it is the image of our personality and our second skin.

We are here to provide you with items that you'll love to own! Almost 100 years of experience make us what we are - we have been producing leather goods since the 1930s, continuing the family tradition, which is manifested by our proudly used, former name of the wallet - **PULARYS**.

Modern production methods allow us to achieve maximum effect with a minimum of materials used. The result is a product freed from excess, beautiful in its simplicity and yet fulfilling its function. The PULARYS wallet is small, but surprisingly spacious - it does not overwhelm with its presence, it does not take up space in a briefcase, handbag or pocket. It is at your fingertips - always functional. Thanks to RFID-blocking technology, which protects against unauthorised scanning of cards, it uncompromisingly safeguards sensitive data and money.

We are driven by a passion for creating elegant, practical and innovative products - we simply know what's good. And so do our customers!

90 YEARS

We started in the **30s of the 20th century** as a small family business, specializing in leather harnesses for horses. Such a product was very much needed at the time, as horses were omnipresent, owned by many people and serving for transport and labour purposes. The experience and craftsmanship our ancestors gained and passed on to future generations during the decades of their work resulted in the company's constant growth, leading to what we are nowadays.

In the early 90s **we decided to focus on leather wallets**. The thought of producing high-quality wallets for everyday use that accompany everyone everywhere was and is very enjoyable and motivating up to this day.

MADE IN EUROPE

PULARYS wallets are made from genuine top-grade natural leather, creating a combination of modern aesthetics, optimal functionality, and high quality. They provide all the necessary features for your daily life, such as quick access to cards, cash, and coins. The wallets are stitched with the highest quality sewing machines, using polyester thread that has a special resistance to abrasion and ageing. The leathers we use meet all the REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) requirements in compliance with the standards of the European Union's environmental and health regulations. Each wallet is finely detailed using traditional techniques, such as waxing and burnishing, as well as advanced technologies, including computerised stitching. This ensures that each wallet has a unique and modern look, along with the qualities and features that guarantee a long-lasting product. The quality of hand-crafted products is in-

comparable to mass production. A machine will never be able to evaluate such a subtle feature as the aesthetics of a wallet, and it will never be able to replace the judgment of a human eye and hand. Therefore, having the skills and ideas in our heads, **we developed our own technology and procedures for the production of PULARYS wallets.** Every item we offer is manufactured exclusively by our craftswomen and craftsmen who work in PULARYS production hall. We believe in personally taking care of every single step of the production process.

Choosing PULARYS wallets you can be sure that you're choosing European, tradition-based products made of the highest quality materials.

SMART SOLUTIONS

A PULARYS minimalist wallet helps you stay organised, safe, and stylish anywhere you go. It offers RFID-blocking technology, helping to protect your credit cards, debit cards, and ID from identity theft and electronic pickpockets. The finished leather product is durable and looks great, giving you an extra touch of class and sophistication. Its card slots and aluminium case make organisation easy, while the slim size ensures that your pocket won't be over-stuffed.

The PULARYS wallet is designed with a “pul” mechanism of gradual card ejection, which is very much appreciated for its convenience by our customers. This mechanism allows for a slow and controlled release of cards from the wallet, making it easier for the user to access their cards without struggling to pull out a single card or a bunch of cards at once. **Our test results showed that even after 100,000 pulls the “pul” mechanism works as expected.** On top of that, we also perfected the inner part of the mechanism in order to achieve a firm and safe grip on every card.

Although our PULARYS wallets that contain the “pul” mechanism are compact, we offer many models that are surprisingly spacious and provide their owners with both banknote compartments and even coin pockets.

The concept comes first and we care a great deal about its uniqueness. It's our policy to stand out from the immeasurable mass of “copies of copies”.

During the production process, we do not only rely on the work of careful human hands. Our team of designers enables us to create outstanding designs from scratch, which meet our customers' ideas and needs.

It is of great importance to us to keep the design process creative and bold. We're constantly looking for innovative ways of solving problems and challenges and very often come up with a solution that's different from what's already on the market. These smart solutions and the usage of materials have become our trademarks, which we are very proud of and excited about. Therefore the majority of our PULARYS designs are **registered and copyright protected**.

At PULARYS, we provide our customers with exclusive wallets of premium quality and flawless finish that they won't find anywhere else.

DESIGN LIKE NO OTHER

MATERIALS

THE ORIGINAL LEGENDARY VINTAGE SADDLE LEATHER

The Original Legendary Vintage Saddle Leather is a material that has been used for centuries in the manufacture of high-end saddles. It is tanned using vegetable substances and gains its water-repellent properties from the use of hot wax, which, by penetrating its structure, protects the leather from water while retaining its elasticity. Over time and with use, the appearance of the leather changes - **it gets scratched, its colour changes shade in the folds and takes on a noble, natural patina**. In addition, the leather becomes more supple and durable the longer it is used. The Original Legendary Vintage Saddle Leather is prized for its raw beauty, durability and versatility, which is why it is used not only for saddles, but also for a whole range of other leather products.

NOMAD LEATHER

Nomad leather, also known as a long-lived one, is a full-grain pull-up leather of the highest quality. It has been soaked with oil, thanks to which the wallet changes its appearance over time. **It lightens in its folds** and easily scratches, creating a **natural vintage look**. However, it is possible to restore its original appearance by polishing.

ITALIA LEATHER

Italia leather is a modern half-matte-finish leather, which is available in a wide range of vibrant colours. The surface of the leather has been sprayed with a colour anilin dye. Thanks to this the natural growth marks and the structure of the leather are preserved and still visible on the finished product. This is a unique feature of our natural, full-grain leather. Being a semi-veg tanned leather, **Italia leather is exceptionally soft** and pleasant to the touch, yet strong and **durable**. In addition, the leather has been covered with a water-repellent varnish, which makes it **dirt-resistant**.

HUNTER LEATHER

Hunter leather is high-quality pull-up leather, commonly known as nubuck. Its surface has been polished, soaked in a special oil, and finally coated with a wax that allows the wallet to age beautifully, which creates a **natural worn-out and second-hand look**.

REGALIA LEATHER

Regalia leather is a full grain natural leather. Its character is achieved by transferring metallic colour onto it from a special transfer film. Regalia is dirt-resistant and soft and smooth to the touch. Shiny and futuristic, it catches the eye both in daylight and in the glow of club neon lights.

WASH PAPER

Wash Paper is a modern, eco-friendly material that is widely used in the world of fashion and design (commonly used, for example, as a label on the back of jeans). It is a blend of cellulose and silicone, with a **leather-like appearance and exceptional durability**. Wash Paper does not dissolve on contact with water and is water-resistant, which is ideal for demanding conditions.

ALUMINIUM

Aluminium alloy AW-6063 is a durable and lightweight material, characterised by high corrosion resistance and excellent extrudability, i.e. the ability to be formed into complex shapes. In addition, aluminium is a material that can be recycled many times without losing the quality of the raw material.

VARIANTS

The basic versions of our wallets are equipped with compartments that can hold several payment cards, documents, and banknotes. Some of them are available in enhanced versions - with additional features or eye-catching designs.

Go

Go is an additional inner pocket for coins or other flat essentials such as keys or memory cards. It closes with a flap. The pocket is flat and discreet; a few coins inside will not cause the wallet to bulge.

Max

Max is an additional external coin pocket with a snap fastening. Thanks to its accordion design, the pocket is really spacious - it can hold a lot of change or other small items you want to keep with you at all times.

Decor

The **Decor** option is an aesthetically pleasing decoration available on some wallets and ZEN credit card holders. The natural leather is decorated by debossing or stitching and the credit card holders are decorated by laser engraving. Such a unique, customised wallet makes a great gift idea. Or a special gadget just for yourself.

For AirTag

The **For AirTag** option is an additional external pocket designed to perfectly fit an AirTag-type locator, which is secured by the strong snap fastening. With this feature, you will never lose sight of your wallet.

EVERYWHERE YOU GO

CREATE YOUR OWN ZENBox!

The PULARYS ZENBox is a customisable cardboard box display containing 20 PULARYS ZEN CREDIT CARD HOLDERS.

The displays and aluminium credit card holders we offer can be designed with the artwork of your choice, e.g. referring to your business, service, sports team, travel destination or location. Our production processes allow individual design and customisation based on your wishes.

The customised displays and card holders let your customers connect with your service on a unique level combining a high-quality product with their personal experience, allowing them to keep their memories with them everywhere they go. In our opinion, the ZENBox is especially suitable for concept stores and souvenir retailers.

ZENBox – DISPLAY with 20 PULARYS ZEN CREDIT CARD HOLDERS, mixed

Customise it to your liking!

BUSINESS GIFTS
